IceDUNE Workshop Information

Wednesday 16 June 2021 - Friday 18 June 2021

IceDUNE
JUNE 16-18, 2021

Book of Abstracts

Contents

Welcome! – Workshop Goals 1

DUNE detector 1

IceCube detector 1

Oscillations 1

Atmospheric flux 1

Cross sections 1

New particles 1

Fundamental Symmetries 2

nuFlux 2

nuSQuIDS 2

HEDIS 2

LeptonInjector 2

Software tools for DUNE 2

IceCube Upgrade Monte Carlo 3

Workshop wrap-up 3

1

Welcome! – Workshop Goals

Corresponding Author: aschn@mit.edu

2

DUNE detector

Corresponding Author: trj@fnal.gov

4

IceCube detector

Corresponding Author: summer.blot@desy.de

5

Oscillations

Corresponding Author: pmachado@fnal.gov

6

Atmospheric flux

Corresponding Author: gaisser@udel.edu

7

Cross sections

Corresponding Author: aagarciasoto@km3net.de

8

New particles

Corresponding Author: ivan.martinezsoler@northwestern.edu

9

Fundamental Symmetries

Corresponding Author: thomas.stuttard@nbi.ku.dk

Software talks – Available resources / 11

nuFlux

Corresponding Author: jmhardin@mit.edu

Software talks – Available resources / 12

nuSQuIDS

Corresponding Author: carguelles@fas.harvard.edu

Software talks – Available resources / 13

HEDIS

Corresponding Author: aagarciasoto@km3net.de

Software talks – Available resources / 14

LeptonInjector

Corresponding Author: bsmithers@mail.icecube.wisc.edu

Software talks – Available resources / 15

Software tools for DUNE

Corresponding Author: trj@fnal.gov

Software talks – Available resources / 16

IceCube Upgrade Monte Carlo

Corresponding Author: jmhardin@mit.edu

17

Workshop wrap-up

Corresponding Authors: carguelles@fas.harvard.edu, aschn@mit.edu, conrad@mit.edu, jmhardin@mit.edu
